

Mohammed Salah Afzal

Hyderabad, Telangana, India | m.salahafzal1773826@gmail.com | <https://www.linkedin.com/in/mohammed-salah-afzal-27860031a> | <https://github.com/MohammedSalahAfzal> | <https://mohammedsalahafzal.netlify.app>

SUMMARY

A motivated and enthusiastic B.E. graduate in Computer Science and Engineering with a strong passion for Data Science, Data Analytics, and Data Engineering. Possessing a solid foundation in Python programming, SQL, database management, data visualization, and analytics, along with practical experience gained through internships and academic projects.

Passionate about solving real-world problems using data-driven approaches and continuously improving technical expertise in modern data technologies. Experienced in developing machine learning applications, web-based systems, and data management solutions. A quick learner with strong analytical, problem-solving, and communication skills who enjoys working collaboratively in team environments.

Currently seeking opportunities as a Data Engineer, Data Analyst, Business Intelligence Analyst, or Junior Data Scientist to contribute technical knowledge, gain industry experience, and grow professionally.

EDUCATION

ISL Engineering College

Bachelor of Engineering (B.E.) – Computer Science & Engineering, Affiliated to Osmania University, Completed: 2026
CGPA: 7.6/10

Narayana Junior College

Intermediate (MPC), CGPA: 7.7/10 Completed: 2022

The Progress High School

Secondary School Certificate (SSC), CGPA: 9.8/10 Completed: 2020

EXPERIENCE

Data Science Intern

June 2026 – Present

Teks Academy

- Working on Python programming and SQL.
- Learning Data Analytics and Data Visualization.
- Developing dashboards using Power BI.
- Applying Machine Learning concepts on datasets.
- Understanding Statistics for Data Science.
- Building hands-on projects related to Data Analytics.

Data Science Master Internship

October 2025 – March 2026

Altair

- Learned practical Data Science concepts.
- Worked on real-world datasets.
- Improved analytical and visualization skills.
- Explored machine learning workflows.

Python Full Stack Development Intern

March 2025 – October 2025

EduSkills Foundation

- Learned Python programming.
- Developed web applications.
- Worked with frontend and backend technologies.
- Improved debugging and problem-solving skills.

Artificial Intelligence & Machine Learning Intern

November 2023 – April 2024

Google

- Learned AI concepts.
- Studied Machine Learning fundamentals.
- Explored intelligent systems.

Data Engineering Intern

June 2023 – October 2023

Amazon Web Services (AWS)

- Learned cloud computing concepts.
- Studied Data Engineering fundamentals.
- Explored AWS cloud services.

PROJECTS

Multi-class Mental Illness Prediction Using NLP and LSTM | Developed a deep learning-based web application capable of predicting multiple mental health conditions from textual input.

- Technologies Used: Python, Flask, TensorFlow / Keras, Natural Language Processing (NLP), LSTM, SQLite, HTML, CSS, JavaScript
- Text preprocessing
- NLP techniques
- LSTM model
- User-friendly prediction interface
- Real-time prediction

Task Management System | Developed a complete task management application that allows users to organize and manage daily tasks efficiently.

- Technologies Used: Python, Flask, SQLite, HTML, CSS, JavaScript
- User Registration
- Login Authentication
- Add Tasks
- Edit Tasks
- Delete Tasks
- Mark Task as Completed
- SQLite Database
- Responsive Interface

Budget Tracker | Developed a budget management application for tracking income and expenses.

- Technologies Used: Python, Flask, SQLite, HTML, CSS, JavaScript
- Add Income
- Add Expenses
- Monthly Reports
- Budget Analysis
- Expense Tracking
- SQLite Database
- Dashboard Visualization

TECHNICAL SKILLS

Python

SQL

Pandas

NumPy

Power BI

Matplotlib

Microsoft Excel

DBMS
RDBMS
SQLite
Flask
HTML5
CSS3
JavaScript
Git
GitHub
VS Code
Jupyter Notebook
Data Analysis
Data Visualization
Data Engineering Fundamentals
Machine Learning Fundamentals
Natural Language Processing (NLP)
Statistics
ETL Concepts
Problem Solving
Analytical Thinking
Communication
Public Speaking
Teamwork
Leadership
Time Management
Adaptability
Critical Thinking

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations
AWS Academy Graduate – Cloud Architecting
AWS Academy Graduate – Data Engineering
Python Essentials 1
Data Analytics with Python & Power BI Virtual Internship

PUBLICATION

Multi-class Mental Illness Prediction Using NLP and LSTM
Research paper focused on applying Natural Language Processing and Long Short-Term Memory (LSTM) networks for multiclass mental illness prediction.

LANGUAGES

English Hindi Urdu

CAREER OBJECTIVE

To secure a challenging role as a Data Engineer, Data Analyst, or Junior Data Scientist where I can apply my programming, analytical, and problem-solving skills to build data-driven solutions while continuously learning emerging technologies and contributing to organizational success.

I am committed to continuous learning, professional growth, and delivering high-quality solutions through innovation, collaboration, and data-driven decision-making.
